SUBJ: INDOVISTA MSDS'S FOR FATTY ACIDS AND GLYCERINE

Interoffice
Communication

VISTA

These two MSDS's were still draft because IndoVista hasn't responded to our comments/suggestions made in MJH's memo of December 18. Basically, we were assisting in reviewing the MSDS's and final production was being done over there. For these two products we had very little data to work from.

You can finalize the MSDS's based on MJH's memo.
