Removing Ashley. There is a long standing White House ask happening in Alaska this same week, and we can't facilitate travel elsewhere. Are there any other upcoming events/conferences EEI will be hosting going forward? Would very much like to get the Administrator in front of your group to highlight the work we are undertaking to revitalize the energy/power sector.

Hi Eric,

Thank you for the invite! Unfortunately, the Administrator will not be able to attend.

Ashley Brown
U.S. Environmental Protection Agency
Director of Scheduling – Office of Administrator

Hey Ashley & Michael – Hope you all are doing well! Attached is an invitation from the Edison Electric Institute's (EEI) Interim President & CEO Pat Vincent-Collawn inviting Administrator Zeldin to address EEI's 2025 annual meeting and thought leadership forum, which will be held June 2-4 at the Hyatt Regency New Orleans. As noted in the invitation, our industry CEOs and our audience would appreciate learning more about the Administrator's priorities for the EPA and his views on a range of energy and environmental issues.

Today, demand for electricity is growing at the fastest pace in decades, thanks to new data centers, the rapid growth of AI technologies, and the onshoring of manufacturing. EEI's member companies are committed to working together with the EPA to advance durable public policies and flexible regulations that benefit our customers and meet their growing and evolving needs for electricity that is safe, reliable, affordable, and increasingly clean.

We would like to welcome the Administrator as a closing keynote speaker on Wednesday morning, June 4. In addition to the keynote session, we would be happy to create a private opportunity for the Administrator to meet and engage with electric company CEOs who serve on EEI's Board of Directors. We also have keynote sessions on June 2 and June 3, and we are happy to work with your team on the format and specific day/time to accommodate your schedule. Last year's event attracted an audience of more than 1,300 electric company and technology company executives, industry investors, policymakers, corporate customers, and media.

Thank you in advance and we really appreciate your consideration. As always, please let me know if you have any questions or need additional information.

Thanks,
Eric
