Dear Mr. 5.1.2e

As also discussed by phone the intention of this 2nd consultation is mainly to check tonnages, emissions, alternatives and transition costs as mentioned in the summary reports and tables in the questionnaire.

In the broad summer 2020 consultation we received a load of information (including very many attachments & position papers).

In this round we are looking for to the point (publicly available / verifiable) data in case data is challenged.

As there is a very tight time schedule, and we already received many documents from the summer 2020 consultation, we decided to keep the number of characters limited with no attachment upload possibility for this consultation.

In case there are comments on the summary reports you could send this via the functional mailbox (see cc.). In all cases verifiable comments / data is crucial at this stage.

Regarding different legal entities:

There is no need to upload information per legal entity. The European scope is key. Different Member States handle different topics and we'll divide feedback among Member States, in case necessary.

Best regards,

5.1.2e

Subject: Questionnaire PPAS BAuU website - practical questions

Dear Mr 5.1.2e

I have a question about the 2nd Stakeholder consultation on a restriction for PFAS, published on the BAuU website, on the questionnaire itself. We would like to know:

- The format indicates 200/1000 characters left (which is limited). Can we attached more wording (if we have more to share) and how is this organized?
- Are there any attachment sections in the questionnaire available (in general or per use or the 16 mentioned segments)?
- Can we attach comments on the summary reports? And how is this organized (within questionnaire possible or only via separate functional email address as indicated before)

Thanks already for clarifying.

Met vriendelijke groet / With kind regards,

Chemours Netherlands B.V.
