Dear Dr. Walmer:

Enclosed please find our check in payment on your statement covering the expenses in connection with your Preliminary Survey of seven plants of the Asbestos Textile Institute in preparation of your "Memorandum on the Proposed Epidemiologic Study of Lung Cancer in the Asbestos Workers for the Asbestos Textile Institute."

This memorandum is presently being studied by the Institute and the results of these considerations will be passed on to you in the near future.

Very truly yours,

Dear Dr. Braun:

The Air Hygiene Committee of the Asbestos Textile Institute has had two memorandums from your institute under study for about a year now. At the last meeting of the Air Hygiene Committee in Philadelphia on March 7th it was the opinion of the Committee that both of these memorandums were to be dropped at this time.

The first was a memorandum regarding the Environmental Dust Survey for the Asbestos Textile Institute. This memorandum was forwarded from your office on February 29, 1956. The second memorandum was entitled "Epidemiological Study of Lung Cancer in Asbestos Workers". Both of these proposals were rejected at this time for various reasons and, therefore, the writer, as Chairman of the Committee, was instructed to inform you of the decision of the Committee on these two memorandums.

If at a later date it is the Committee's desire to reopen either of these memorandums you will be so informed.

Very truly yours,

By

D. R. Holmes, Chairman

Dear Mr. Holmes:

Thank you for your letter of April 26 explaining the action of the Air Hygiene Committee with respect to the memoranda which the Foundation had submitted to the Institute. Should your interest in these subjects be renewed at a later date, we would be very happy to discuss them with you.

I hope that if you are in the vicinity of Pittsburgh at any time in the near future, you will stop in at the Institute to pay us a visit.

Sincerely yours,

Daniel C. Braun, M.D.
