

October 20, 1969

Prof. Joseph C. Street
College of Agriculture
Utah State University
Logan, Utah 84321

Dear Prof. Street:

I received this morning the paper recently presented at the American Chemical Society meeting. Copies have been made for those in Monsanto involved in the PCB problem as well as to our toxicological consultants.

We certainly all enjoyed meeting you Friday evening and feel for our part the discussion was most helpful. I hope you and the other members of the committee agreed with our view.

Best personal regards.

Sincerely,

Elmer P. Wheeler
Manager, Environmental Health
