S-W PURE SPIRITS OF TURPENTINE
(WOOD SULFATE - 03914)

S-W Pure Spirits of Turpentine (Wood Sulfate).—A product refined and purified in our Chicago factory is in many ways superior to pure gum spirits and more economical.

1. Its solvent strength is at least equal and in some cases slightly better than gum spirits.
2. Its solvent strength is nearly twice that of mineral spirits.
3. Its mild odor is as pleasant as that of gum spirits.
4. It meets government specifications TT-T-801 Type 3 which supercedes MIL-T-751 B, Type 1.
5. It costs less than gum spirits.

Such major qualities make S-W Turpentine a most essential thinner for all users of paint and varnish.

Chemists habitually recommend turpentine for thinning outside house paint because it has been learned through experience that its penetrating

- gives two definite advantages:
1. Better adhesion over hard surfaces
 2. Avoidance of finish coat crawling over a slick priming coat.
- Acetone is also best for thinning varnishes.

14000119A 2000

1. It prevents warping.
2. It speeds up drying.
3. It cleans the brushes when the job is finished.

Turpentine is an essential item which makes it a perfect companion product. A few cans displayed in a convenient location will invite "self service" and produce sales.
