Subject: RE: PFAS in FFF at RAC 60 plenary in March

Dear [REDACTED]

Thanks a lot! I would be very grateful for your help. I have started to compile slides. Please see slides 7-13 in the attachment. If you can provide the hazard assessment part I can focus on other parts as you can see at the moment it is a very initial draft. I would need slides by EoB Monday next week.

It should not be very detailed but nicely telling a story and explaining why we need to ban it.

Concerning participation of other colleagues in RAC please let me know the names as soon as possible. We need to send formal invitation as you have received.

Best regards,

From: [REDACTED] <[REDACTED]>

Dear [REDACTED]

I received the invitation. I assume you/ECHA will prepare a presentation for the plenary and I/we from the UPFAS group will support you concerning any clarifications?

Best regards
