V. Berylliosis — Case Presentation and Differential Diagnosis 153
P. G. Swann, M.D.

Review of Medical Statistics, 1964 162

Abstracts 190

Newsnotes 195

While looking into the question of pulmonary fibrosis, it occurred to me you might like to see, very briefly, a few x-rays of some other rather interesting types of fibrosis from a differential diagnosis point of view. These were obtained from Dr. Kerley.

The first one is a case of asbestosis showing severe pulmonary fibrosis with calcified pleural plaques. (Figure 5)
