Don G. Fowler
Executive of Health and Safety

September 9, 1964

To Members of the Lead Abstracts Subcommittee:

Messrs. J. A. Taylor
Kurt Raht
Donald R. Diggs

Jim Taylor has agreed to hold a meeting of the Subcommittee here in New York at our offices on Thursday, October 15, at 10:00 A. M. At that time the LIA Staff will have some background material to offer for your consideration and we all will be able to discuss the various points of view that have been raised about the subject.

This meeting has been planned to precede by one day the regular Health and Safety Committee Meeting for the convenience of those who must travel from out of town. You will all receive the usual notice of the Health and Safety Committee Meeting, which will be held on Friday, October 16.

Very truly yours,

Don G. Fowler
