VISTA

Mr. Jim Thomas
Manager Purchasing
Oxychem
Five Greenway Plaza, Suite 2400
Houston, TX 77227-7702

Dear Jim:

Vista has an established internal mechanism for responding to transportation emergencies involving our products. The process, known as Chemical Transportation Incident Response Plan (CTIRP), has established emergency response teams at each manufacturing location. The team members are trained in emergency response methods as well as other regulatory requirements such as OSHA's Hazwoper Standard. The system is controlled, or initiated, through a 24-hour emergency number. The person answering this number is trained in call-out procedures to implement a response.

The shipping location for the ALFOL Alcohols you purchase is equipped with an emergency response vehicle containing equipment and supplies for transportation emergency response.

It should be noted that Butch Polasek, Oxy CERP Manager in Dallas, has a copy of our CTIRP manual. Please call me at 713-588-3445 if you have further questions.

Sincerely,

Thomas

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
