Cumulative Index to the
**Proceedings of the National
Safety Council**
for the Years
1919 - 1925

Published by the
National Safety Council
Library and Information Bureau
108 East Ohio St., Chicago
1926

**CUMULATIVE INDEX TO THE PROCEEDINGS OF THE
NATIONAL SAFETY COUNCIL FOR THE
YEARS, 1919-1925.**

This publication contains a cumulative index to all Annual Proceedings of the National Safety Council for the years, 1919-1925, inclusive. With the help of this alphabetical analytical index, by subjects and authors, you will readily find authoritative information on practically every phase and detail of accident prevention, industrial health and other allied subjects. A cumulative index to the Proceedings of the National Safety Council for the years, 1912-1918 was published in the 1918 volume of the Proceedings, pp. 1163-1246.

Vol. 8, 1919

Vol. 9, 1920

Vol. 10, 1921

Vol. 11, 1922

Vol. 12, 1923

Vol. 13, 1924

Vol. 14, 1925, pt. 1; pt. 2.

- Abbott, E. R.: "Platforms, walkways, stairs, ladders, and floors in cement mills," 8:429-433.
- A. B. C. Session, 8:287-313; 9:67-84; 10:121-142; 11:145-155; 12:119-146; 13:83-114; 14:pt. 1, 135-166.
- Abrasive Wheels: Discussion, 10:125, 155-156.
- "Why grinding wheels break" (Dodge) 10:149-154.
- Absenteeism of Employees:
- "Adequate records of lost time in industry due to sickness" (Newman) 10:296-303.
- Experience of Hood Rubber Co., Watertown, Mass. (Discussion) 10:303-304.
- Experience of Westinghouse Electric Co., Pittsburgh (Discussion) 10:305-306.
- In "Critical analysis of health and accident experience for a twelve year period in a public utility" (Moses) 14:pt. 1, 414-428.
- Accident causes, see Classification of causes of accidents.
- Accident, Definition of preventable, 8:510.
- Accident Prevention: "Accident prevention from a medical standpoint" (Lipman) 10:499-503.
- Address (Dow) 11:880-889.
- Coordination between engineering and operating (Warnick) 11:867-874.
- "Relation of the chief engineer to accident prevention" (Eustace) 11:813-817.
- Accident Records: "Accident records and how to keep them" (Auel) 13:83-88.
- Accidents reports, see Report forms.
- Accidents: "Actual experience and its relation to insurance rates" (Klinghorn) 10:522-525.
- "Fixing the responsibility for an accident" (Mulligan) 9:726-734.
- Freak accidents, 9:438-440.
- Investigation of, 8:761; 776-777.
- "Practical demonstration of investigating accidents" (Weeks) 8:766-776.
- Reduction methods, 541.
- Statistical and standardization committee tentative report on a standard list of causes for use in classifying accidents on construction work, 9:599-604.
- "Tracing the real causes of accidents" (Gaddis) 9:454-457.
- Accidents—Costs: "Accidents in the ice and refrigeration industry and their cost" (Hero) 12:484-489.
- Bulck Motor Co. record. In "Value of accident statistics on the standard basis" (Thalner) 12:188-189.
- Cost of accident to electric railways. In "Obligations and opportunities of public service companies in community safety" (Bowen) 12:943.
- Cost of traffic accidents. "In Method of study of traffic movement in relation to traffic accident prevention" (Kelcey) 12:841.
- Discussion, 8:983-984, 1061-1082, 1248-1249, 1364; 11:87-88.
- "Dollar side of safety" (Hook) 11:157-165.
- "Economic effect of railroad safety work" (Dunn) 9:1227-1231.
- "Financial side of accident prevention" (Seely) 11:844-852.
- In "Industrial safety" (Redpath) 12:59.
- In "Program in accident prevention in public utilities" (Morrison) 11:837-839.
- In "Punch press hazards" (Kaems) 12:181.
- In "Review of the petroleum accidents in Oklahoma" (Fowler) 13:727-737.
- In "Selling safety to operators of woodworking machines" (Hatch) 11:1049-1051.
- Production increased, accidents decreased (Kaems) (Discussion) 11:164.
- "Reducing accident costs in waterfront work—the conflict between compensation and admiralty laws" (Fouhy) 13:530-536.
- Accidents, Investigations of, see Investigation of accidents.
- Accidents—Reductions: Electric railways, 14:pt. 1, 378-380.
- In "Accident prevention by cities" (Ferguson) 14:pt. 1, 362-364.
- In Annual report of the president (DeBlois) 13:18-21.
- In "Concrete results from scientific accident prevention" (Gordon) 14:pt. 1, 904-906.
- Accident Reports, see Report forms.
- Accident Statistics: About coke ovens. In "Safe Practices in by-products coke plants" (Marquard) 10:380.
- "Accident prevention and severity in the meat packing industry" (Callum) 14:pt. 1, 655-673.
- "Accident records and how to keep them" (Auel) 13:83-88.
- Accidents in American Steel & Wire Co., Worcester, Mass. In "Safe Practices in rolling mills" (Johnson) 10:387.
- "Accidents in the ice and refrigeration industry and their cost" (Hero) 12:484-489.
- "Accidents in woodworking industries" (Kuhn) 11:1036-1041.
- Airplane Accidents. In "Report of Committee on Public Accident Statistics" 10:579.
- American Radiator Co. reduction statistics. In "Industrial safety" (Redpath) 12:60-61.
- Anaconda Copper Mining Co., 11:540.
- Atlanta, Ga., automobile accident reduction, 13:89.
- Automobile accident record of American cities, 12:803-808.
- Automobile accidents. In "Suggestions for model tables on automobile accidents" (Stellwagen and Kopf) 13:854-873.
- "Automobile accidents in the United States" (Stellwagen and Ryder) 11:789-797.
- Automobile accidents investigated in Grand Rapids, 13:882.
- Automobile and other traffic fatalities. In "Report of Committee on Public Accident Statistics," 10:575-577.
- Automobile fatalities in Louisville, 13:889.
- Bell Telephone Co. In "Development

- Accident Statistics—Continued
of accident prevention and first-aid work in the telephone field" (Downey) 10:660-661.
Buick Motor Co. record. In "Value of accident statistics on the standard basis" (Thalner) 12:188-189.
Burns, 9:382.
Burns. In "Safe Practices in pouring in foundry" (Root) 10:367-368.
Cement Industry, 9:472.
Cement industry. In "Fatal accidents—are they due to faulty mechanical equipment or appliances or to carelessness or both?" (Frame) 14:pt. 1, 250-251.
Chemical industry, 8:465.
Chicago and Cook Co., 13:654.
Chicago Ice Producers Mutual Liability Co. Record of members (Hitt) 12:489-490.
Children's deaths in St. Louis, 9:1077.
Classifications of motor vehicle fatalities, 14:pt. 2, 55.
Cleveland traffic deaths, 14:pt. 2, 23-24.
Coal dust explosions. In "Powdered coal hazards" (Jacobsen), 12:284.
Coal mines. In "Organizing the mining industry for safety" (Feehan) 13:605-609.
"Compiling and using accident records" (Adair) 12:124-131.
Connecticut record, 11:781.
Cook County, Ill. In "How a delivery organization can reduce accidents to the public" (Hanrahan) 12:490; 493-494.
Coupling and Uncoupling. In "Coupling and uncoupling accidents" 10:786-788.
Decrease due to education, 8:661-662.
Detroit accidents, 9:204; 12: 865.
Discussion on Cement company records, 12:273-274.
Discussion on railroad statistics, 14:pt. 1, 980.
Discussion on Standard method of computing accident statistics, 12:192-193.
Discussion on value of comparative accident statistics (Woodtke) 13:311-314.
Drowning statistics. In "Report of Committee on Public Accident Statistics" 10:577-578.
DuPont Dye Works. In "Value of accident prevention work in the chemical industry" (DeBlois) 14:pt. 1, 335.
East St. Louis Railway Co. In "Safety principles as applied to the individual utility" (Parsons) 12:360.
Edison Electric Illuminating Company. In "Critical analysis of health and accident experience for a twelve year period in a public utility" (Moses) 14:pt. 1, 425-427.
Electric railways, 13:376-377; 14:pt. 1, 378-380.
Electric railways. In "Scientific accident prevention" (Gordon) 14:pt. 1, 904-906.
Elevator Accidents, 10:578-579; 13:441-442.
England and Wales, 13:841.
"Eye Injuries" (Francis) 12:192-199.
Falls. In "Report of Committee on Public Accident Statistics," 10:577.
Foreign countries. In "Wages and waste" (Auel) 14:pt. 1, 983-983.
Forms for mine accidents discussed, 11:497-501.
Fred T. Ley & Co., 11:296.
Frequency and severity of logging accidents, 9:1365-1366.
Frequency and severity rates, 8:128; 136; 460; 461; 493-494; 521; 1432-1436; 9:1349.
Geuder, Paeschke and Frey, 9:59.
Grade crossings. In "Careful crossing campaign" (Rowe) 12:61-63.
General Builders' Association of Detroit, 14:pt. 1, 371-374.
Grasselli Chemical Company reduction (Rogers) 14:pt. 1, 322.
Handling Billets. In "Safe Practices in rolling mills" (Johnson) 10:390.
"Handling material" (Ralston) 11:185-191.
Highway accident record of 158 American cities, 14:pt. 2, 60-61.
Home fatalities, 14:pt. 2, 56.
In "Accident prevention in a malleable iron foundry" (Church) 8:724.
In "Actual experience with a safety organization on a typical construction job" (Easterbrooks) 10:231.
In "Coordination between engineering and operating" (Warnick) 11:867-868.
In "Developing woodworking machinery to provide the highest degree of safety (Keown) 10:865.
In "Die Construction—the real safety of punch press work" (Kaerns) 8:316-317.
In "Diseases of occupation in the textile industry," 11:1016.
In "Does Safety work in the textile plant pay?" (Saul) 12:1116.
In "Electric currents, falls of objects or persons" (Chapin) 10:806-809.
Loss to industry. In "Engineering revision and mechanical safe guarding" (Beck) 14:pt. 1, 142.
In "Further comments on traffic accident prevention" (Kelcey) 13:849-854.
In "Getting on or off engines or cars, falling from engines or cars, struck or run over by engines or cars" (Harris) 10:803-805.
In "Handling freight supplies, materials, etc." (Pratt) 10:811-813.
In "Handling rails, ties, timbers, etc." (Astley) 10:809-811.
In "How safety activities for the children reduce accidents" (Palmer) 12:816-817; 819-820; 822.
In "How safety first penalizes the contractor" (Schultz) 12:310.
In "Human conservation—a national necessity" (Wells) 9:47.
In "Human element, the important factor in safety" (Purkhiser) 12:278.
In "International aspects of the safety movement" (Meeker) 12:52.
In "Marine fire hazard" (Titsworth) 12:505.
In "Mental causes of personal injuries" (Hale) 12:1040; 1046.
In "Need and functions of ship safety committees" (Marr) 12:540-541.
In "Organizing for safety in a wood-working plant" (Guilbert) 10:859-860.
In "Progress in accident prevention in public utilities" (Morrison) 11:837-839.

Accident Statistics--Continued

In "Public aspect of the work of the Bureau of Explosives" (Dunn) 12:1032-1034.
 In "Report of accident causes and remedial committee" (Rulland) 12:889-892.
 In "Report of standardization and statistics committee" 11:924-925.
 In "Safe operation of motor trucks" (Patten) 12:885-887.
 In "Safeguarding the lives and limbs of lake seamen" (Marr) 13:538.
 In "Safety engineer--his privileges and opportunities" (Forster) 13:131-132.
 In "Safety engineering in the textile plant" (King) 10:819.
 In "Safety in the logging and lumbering industry" (Dickinson) 13:1189-1191.
 In "Ship stavedoring hazards" (Welch) 12:817.
 In "The warning of public accident statistics" 12:798-809.
 In "Underground transportation from a safety standpoint" (Boardman) 11:539-541.
 In "Why we are interested in Safety" (Williams) 13:372.
 Increase in industrial accidents in New York State. In, Address (Shientag) 12:25.
 Industries compared. In "Fatal accidents are they due to faulty mechanical equipment or appliances or to carelessness or both?" (Frame) 14:pt. 1, 250-251.
 Intro-school accidents in Milwaukee, 9:199.
 Kimberly-Clark Co., 12:686.
 Knife cuts, 8:853-859.
 Lehigh Portland Cement Co. reduction, 13:197.
 Logging accidents in State of Oregon, 8:1368-1369.
 Logging and lumbering, 14:pt. 1, 1111.
 Loss due to faulty illumination, 10:81.
 Lost time, 8:461-580; 9:1339.
 Lost time accidents in handling of gas from the coking of coal. In "Safe practices in by-products coke plants" (Marquardt) 10:482.
 Marquette Cement Mfg. Co. reduction, 13:196.
 "Maritime casualties" (Edwards) 13:511-517.
 "Marine statistics: their value and compilation" (Edwards) 14:pt. 1, 494-497.
 Massachusetts accidents, 10:834.
 Metal mine fire fatalities. In "Fire prevention and fighting in metal mines" (Wolfin) 10:146.
 Metal mines. In "Organizing the mining industry for safety" (Feehan) 12:605-609.
 "Mine accident statistics" (Adams) 13:589-597.
 "National cost of railroad accidents" (Palmer) 12:1072-1082.
 New York City. In "Public safety work by the police department in the greatest city in the world" (Dow) 12:784.
 New York State, 14:pt. 2, 109-110.
 New York State, In "Some proved methods of presenting safety and

health through plant papers" (Witkins) 12:760.
 Ohio industrial accidents, 9:192.
 Oil industry, 11:682-683.
 Ontario lumber statistics, 14:pt. 1, 747.
 "Paper mill accident records" (Currant) 9:1011-1017.
 Peoples Gas Light and Coke Co., 11:918.
 Percentage of accidents due to derailment. In "Hazards of coal mine haulage derailment" (Hoskins) 12:612.
 Persons injured and killed by fires. In "Fire Prevention" (Planning) 10:181.
 Plant fire reductions, 13:706.
 Point of operation accidents. In "Engineering Section and the Council" (Van Schuseck) 12:129-132.
 "Preventable Accidents," 9:349.
 "Problem of school hazards" (Payne) 9:200-202.
 "Progress in standardizing accident statistics" (Chaney) 12:655-659.
 "Public accidents and their loss" (Crum) 8:1061-1082.
 Public Accidents, Report of Committee, 10:572-580; 11:745-778; 12:782-809; 13:849-873; 14:pt. 2, 50-55.
 Punch press accidents at the Simmons Co. In "Punch presses--designs of dies, automatic feeds, and safe guards" (Krause) 10:172.
 Punch press department, 14:pt. 1, 232.
 Quarrying, 9:486; 489; 490.
 Railroads. In "Benefits accruing to the railroad trainman due to organized safety upon the American railroads" (Lee) 14:pt. 1, 1019.
 Railroads. In "Defects or failure of equipment" (Watkins) 10:767-768.
 Railroads. In "Negligence of employees" (Mitchell) 10:764-767.
 Railroads. In "Railroad safety: past, present and future" (Carrow) 14:pt. 1, 973-976.
 Railroads. In "Report of Committee on public accident statistics," 10:572.
 Railroads. In "Safety--the conservator of life" (Hill) 14:pt. 1, 959-960.
 Railroads. In "Scientific accident prevention" (Gordon) 14:pt. 1, 484.
 Railroads. In "Steam Railroad Section's contribution to safety" (Aikton) 14:pt. 1, 999-1000.
 "Record of achievement in the metal industries" (Chaney) 14:pt. 1, 552-558.
 Reductions for various cities, 13:1823-1824.
 Reductions in accidental deaths in St. Louis, 10:576.
 Report number one of the statistical and standardization committee of the Construction Section, 9:681-598, 604-605.
 "Report of Committee on Accident Statistics" 14:pt. 1, 796-809.
 Report of committee on statistics of Steam Railroad Section (Carrow) 12:1079-1080.

Accident Statistics—Continued

- Report of Standardization of Statistics Committee (Partridge) 13:1049-1052.
- Report of accidents from local council cities, 10:571-572.
- Results of safety work in St. Louis, 8:1056-1057.
