1952, please amend as follows:

IN THE STATEMENT:

Line 10	after Class 6 insert <u>Chemicals and Chemical Compositions</u>
Line 17 and Line 19	after "used" after "Congress" insert <u>on</u>

IN THE DECLARATION:

--------	--

REMARKS

Patent Office action of February 29, 1952, has
been carefully considered. The formal amendments with re-
spect to defining Class 6, changing "photographs" to "facsimiles",
and the insertion of "on" before the dates given in the Decla-
ration are hereinabove directed to be made.

N14251.09

Reconsideration is requested of the requirement to disclaim the word "Dutch" as being geographical and of the requirement to cancel the reference to applicant's prior registrations No. 383,849 and No. 390,603 as having no bearing on this case. In connection with this request reference is made to the interview kindly accorded applicant's attorney on August twentieth by Supervisory Examiner Mr. Clarence Kalk and Executive Examiner Mr. John Merchant. The reasons for this request are:

As to the requirement to disclaim the word "Dutch" as being geographical:

It was pointed out at the interview that applicant had met and disposed of the question of the geographical nature of the word "Dutch" some twelve years in the course of the prosecution of its application for registration of its trademark "DUTCH BOY" issued as No. 377,422 on May 7, 1940. In that case also the Examiner entered a requirement to disclaim the word "Dutch" as being geographical but that this was withdrawn on the showing that the word "Dutch" in applicant's trademark was not merely geographical but an arbitrary and fanciful use of the word.

Reference was made in the interview to Ex parte The Glidden Company 501 O. G. 872 which held that a limited geographical significance of a word did not preclude its registration as a trademark. Reference was also made to the "AMERICAN GIRL" case, Hamilton-Brown Shoe Co. v. Walz, Breakhays and Co., 240 U. S. 251, wherein it was held that the phrase as applied

to women's shoes was not geographical or descriptive but was, in fact, an arbitrary, fanciful designation and as such was subject to appropriation as a trademark. The sharp parallel between "AMERICAN GIRL" and "DUTCH BOY" as trademarks was emphasized.

It was also brought to the attention of Messrs. Kalk and Merchant that since May 7, 1940, the date upon which applicant's registration No. 377,422 was issued, applicant has secured three additional registrations for the words "DUTCH BOY" as follows:

No. 382,508 issued June 14, 1940

No. 383,848 issued December 24, 1940 and

No. 390,603 issued September 30, 1941.

In none of these registrations had applicant disclaimed the word "Dutch", as being geographical, nor had it been required to do so and had, therefore, concluded that considerations above recited, put forth in the prosecution of registration No. 377,422 had settled the right of applicant to register its trademark "DUTCH BOY" without being required to disclaim the word "Dutch".

Messrs. Kalk and Merchant agreed that if applicant would make statements above set forth of record in this application, the requirement to disclaim the word "Dutch" would be withdrawn.

As to the requirement to cancel the reference to applicant's prior registrations No. 383,849 and No. 390,603:

Reference in the present application to these prior registrations is thought to be entirely proper since they cover.

like the present application, the words "DUTCH BOY" as a trademark in which no disclaimer of the word "Dutch" was made.

Reconsideration and the passing of the mark for publication are respectfully requested.

The title for Class should be inserted as follows:

"Chemicals and Chemical Compositions" in accordance

✓ with the Official Gazette of November 15, 1949, Volume 628,
page 605. An amendment if required.

→ The word "Dutch" is considered to be geographical.
Suitable disclaimer thereof is required.

✓ The word "photographs" in the Statement should read
"facsimiles" to agree with those on file.

The last two registrations to which Applicant claims
ownership have no bearing on this case and therefore
Nos. 383,849 and 390,605 should be cancelled.

✓ In paragraph two/the Statement the word "and" should
precede both dates shown therein.

A search of the Office records fails to show that this
mark, when applied to applicant's goods, is confusingly
similar to any registered mark.
