SUBJECT: AGENDA FOR THE WEDNESDAY, DECEMBER 15, 1971 MEETING

Gentlemen:

As you were notified by teletype on the subject, and con-
firmed by wire, the meetings will be held at 10:00 A.M. to 5:00 P.M.
at the O'Hare Inn, near the airport in Chicago, Ill.

The purpose of the meeting is to consider, in depth, the
following part of the scope and objectives of ANSI C107, in par-
ticular and, (1) specifically to consider the areas that should be
considered for national standards and/or implementation
and, (2) initiate steps to draft recommendations for considera-
tion by the Capacitor and Transformer Subcommittees:

"Procedures and guides for safe use, maintenance and disposal of askarel and askarel-like materials used in electrical equipment."

As indicated on the telephone call pursuant with the action taken at the September 14, 1971 meeting of ANSI C107, the Chairman appointed a Steering Committee. - - - serve as advisors or otherwise assist him in the performance of his office in the interim between meetings of the Steering Committee. The membership of the Steering Committee is covered in ATTACHMENT #1.

The Chairman met with the Steering Committee on October 1971 and the Capacitor and Transformer Subcommittees and the special Working Groups were appointed. In view of the nearness of the first meeting of the Working Groups, each member was contacted by telephone; and, by carrying out the intent of this letter to the full membership of ANSI C107, the members of the Subcommittee are hereby being notified of their assignment to these Groups. (Subcommittee membership is also included in ATTACHMENT #1).

As also indicated on the telephone call, the format for the December 15, 1971 meetings is as follows:

1. Brief session on the items of information listed in ATTACHMENT #2. (Both Working Groups).

Members are URGED to review ATTACHMENT #2 in advance of the meeting and be prepared to discuss any questions at the meeting.

2. Each Working Group will meet separately for the balance of the morning and join together for a luncheon.

3. Each Working Group will continue with their separate meetings until approximately 1:30 P.M., when they will meet together to review progress.

A review of available publications and projects under development relating to mineral oil or askarel is listed in the following:

1. AIEE No. 76 (December 1968) - Proposed Guide for Maintenance of Transformer Askarel Groups). Enclosed for both Working Groups).

Mr. E. L. Raab, Chairman of the Transformer Working Group will distribute copies of the latest draft revision to bring this publication up to date.

2. IEEE #64 (March 1969) - Proposed for Acceptance and Maintenance of Insulating Oil (copy enclosed for both Working Groups).

3. Doble Engineering Company - Proposed for Maintenance of Transformer Askarel - (copies distributed to both Working Groups at the meeting).

4. IEEE Project #P423 (authorized in March 1972) -
fication of New Askarel.

5. IEEE Project #P424 (authorized in March 1972) -
of Gases in Oil-Immersed Transformers.

6. ANSI C57 Terminology on Oil (ATTACHMENT #3).

For your further information, the Chairman of the
Group plans to supplement this letter with a formal report
each meeting.

Sincerely yours,

A. M. Salazar, Secretary
