100 Park Avenue
New York City 17

Dear Ralph:

I send you herewith reprints of three fairly recent articles relating to air analyses and methods.

The one on the "Collection and Analysis of Solids in Urban Atmospheres," is the only publication of any real significance in relation to the questions dealt with in your letter. We have much unpublished information which will appear later.

I hope this will help. If I can do anything more at this time or later, let me know.

Sincerely yours,

Robert A. Kehoe, M. D.
