1:00 pm Open Forum Discussional

2:30 pm Break

2:45 pm Open Forum Discussional (continued)

4:30 pm Adjournment

SF H018213

Dr. Friedman { Nitrosamines, etc

① News - did Sci - Good News + Bad News (Fed Env. Impact Statement)

You get false positives with animals ② Bruce didn't sleep with anyone last night

DNA gives "+" but is non mutagenic

Diepoxy / Butoxide → Acetylaminofluorine

Cellular not biological is significant in carcinogenicity

Azo dye not carcinogenic if adequate riboflavin diet

AIHC — ACA has alternative pledge & OSHA - So does AIHC

Cerzori (sp) = 5% of all Cancers are industrially induced

Saferil (sp?) = not a carcinogen per Dr. Friedman

"Onvitro can be used in conj. with invivo per OSHA"

Scientific reality VS Court testimony ARE DIFFERENT

What is Delaney Amendment?

Any neoplasm caused = ergo carcinogen

Re: DBCB - Don't get a serious attitude

Dr Cross = Asbestos Workers who are non smokers have very little chance to get asbestosis - their peers have been artificially induced — hence we need educational program
