Dear Vance: C-69000-53

I am enclosing a summary of work carried out under Phase 2 of our study on vermiculite-base materials. I am also enclosing x-ray diffraction and fluorescence scans from the Phase 1 studies (see Synopsis of June 29, 1970) as well as some color slides of the non-vermiculite inclusions separated from No. 3 South Carolina and Montana ores.

The work described herein has exhausted the allocated funds under Purchase Order Nos. 41482 and 41640. Let me know if you have any questions on this work or if we may be of further assistance.

Very truly yours,

Edward T. Peters
