

1 It talked about Dr. Selikoff from Mr.
2 Edwards of Owens-Corning, who was Director of Safety,
3 and it talked about Dr. Selikoff's recent publication,
4 which we have here, and it has the OCF numbers, and
5 that means that came from their files and it is
6 entitled, Asbestos Exposure and Neoplasia dated 1964,
7 April, 1964.

8 It reports on the results of the studies,
9 and one of the sentences here, four mesotheliomas and
10 a total of 255 deaths is an exceedingly high incidence
11 for such a rare tumor.

12 The end of the study concluded, one of the
13 statements concluded, asbestos exposure in industry
14 will not be limited to the particular craft that
15 utilizes the material. The floating fibers do not
16 respect job classifications.

17 Thus, for example, insulation workers
18 undoubtedly share their exposure with their workmates
19 and other trades.

20 To make contact with asbestos, it is
21 possible for electricians, plumbers, sheet metal
