Monsanto Chemical Co.
Organic Chemicals Div.
800 North 12th Blvd.,
St.Louis, Missouri

ATTENTION: Sales Manager

Dear Sir:

Subject: PYDRAUL, 312 Phosphate Ester, Fire Resistant Hydraulic Fluid

As part of our Corporate wide program for the protection of the health and safety of our employees, we in Industrial Hygiene Services routinely investigate all products purchased throughout the Corporation. The purpose of this investigation is to supply our Safety and Production employees with the necessary precautionary information for the safe usage of the products.

In order that we may properly evaluate your product, we request that detailed information regarding its physical and chemical composition be supplied to us. The information about your product should contain the following:

1) Percentage and chemical name of each ingredient.
2) Flash point, open and closed cup, if any. 395°F (MINIMUM) C.O.C.
3) The general physical and chemical properties of the product.
4) The recommended method of use or application. INDUSTRIAL HYDRAULIC FLUID
5) The heavy metal, chromate, phenol or phenol derivative content, if any.
6) The pH of the concentrate, and the pH at the recommended dilution. NOT APPLICABLE

We, of course, appreciate the fact that many organizations as a general policy consider such information as confidential. However, due to the fact that this information will be used only by us in Industrial Hygiene Services for the purposes of health and safety, you can be assured that it will be kept in strict confidence and no details about your formulation will be released.

Sincerely yours,

Louis Redmond
