Hi Ryan, I wanted to circle back on this request...I know y'all have been in travel.

If the Administrator is not available, how about you sir? Senior leadership would be great for this meeting.

The Mercuria team will be with the President tomorrow afternoon. They are expanding in the US. Significant operations in Oklahoma and Colorado.

Thank you.

Nick

RE: MEETING WITH MERCURIA PRESIDENT DANIEL JAEGGI & AMERICAS CEO PETER SHERK

Dear Administrator Pruitt:

I would like to request a meeting for Mercuria Energy Trading's President Daniel Jaeggi and Americas CEO Peter Sherk.

Mercuria Energy Trading is one of the world's largest commodities and energy groups. In 2014, Mercuria acquired the commodities division of JP Morgan Chase and Company.

Mr. Jaeggi and Mr. Sherk will be in Washington, DC on Thursday, 15 June 2017. They would like to meet with you to discuss the EPA's energy initiatives and how they will impact the commodities industry.

I have enclosed Mr. Sherk's and Mr. Jaeggi's biographies for your reference.

Mercuria was one of the first companies in the U.S. to ship U.S. crude to China after the four decade ban on sales was lifted last year.

Mr. Jaeggi and Mr. Sherk would like to discuss how the administration's energy initiatives will help to benefit Americans and result in the addition of new jobs in the U.S. in our industry.

Mercuria remains quite interested in seeking out new investment opportunities in the United States to create jobs, reinvigorate distressed energy assets, and contribute to the American economy.

Please let us know if you are available on that date for a meeting. Please feel free to phone me at +1 202 725 6623 or email gfenstermaker@mercuria.com.

Sincerely,

Grace Fenstermaker
Public Affairs Analyst

Peter Sherk joined Mercuria as the new CEO of Mercuria in the Americas in October 2016.

Prior to that, Peter was co-head of the global commodities group at Morgan Stanley.

While at Morgan Stanley, Peter helped build out the bank's North American power and gas practice after joining the company as a natural gas trader in 1999. Throughout his career, he served as head of natural gas trading and head of North America power and gas trading and origination. Peter started his commodities career in crude trading.

For over 25 years, Peter has enjoyed a long and successful career across the commodities value chain.

Peter received a Bachelor's Degree in Economics from McGill University.
