

1 Q By the way, was that in the late '60s?

2 What is your best recollection of when that
3 was?

4 Was that around 1969 or '70?

5 A '67, '68.

6 Q '67, '68.

7 And then it would be mixed and then
8 transferred to a hopper; is that correct?

9 A Yes..

10 Q And when it was mixed in the mixer, it was
11 mixed with water and some other things I suppose; is
12 that right?

13 A Just water, yes.

14 Q Just water, okay. Then it would be
15 transferred into a hopper?

16 A Into a hopper.

17 Q How would you transfer it into a hopper,
18 with a shovel or something like that?

19 A No, usually we had -- a hopper would be
20 right where the mixer was and that would be the big
21 hopper, and then we had another, it was an Essex pump.
