speak to brake repair. It was a test, if I recall correctly, done at the laboratories.

Q It was done at the laboratories at GM; is that correct?

A Yes, sir.

Q And that study was done by, if I recall, it would be Mr. Williams and Mr. Muhlbaier; is that correct?

A Yes, it is stated right here.

Q Does that look like the study there?

A That is the first page of it, yes, sir.

(Whereupon, the documents were published to the jury via the overhead projector.)

BY MR. SHELLENBERGER:

Q In fact, isn't it true that not only was there no brake repair in this case, but actually what they were testing were the levels around tollbooths; is that right?

A Indeed in that case, that is correct.

Q Okay. So this study here, number 14, that formed some of the basis of your opinion, no brake
