PCB CONFERENCE

Utrecht - Holland

Date : September 20, 1972

CC : RA BAXTER - RUABON
HR COLLET - THE HAGUE
HA VODDEN - RUABON
PJA MARSH - BRUSSELS
S TUROVER - BRUSSELS
C PATON - ST LOUIS
WB PAPAGEORGE - ST LOUIS

Attached are my notes on this conference which was sponsored by the Dutch office of Bayer, Germany.

To summarise - no legislation planned, cooperation between industry and Government encouraged.

The paint industry will cease use of PCB's and related compounds (PCT's) as soon as possible.

A copy of the Task Force Report should be sent to Prof. H van Genderen at Utrecht. If one of the copees has a spare, please mail it to me for onward transmission.

Dr. Vos, who works with Van Genderen, will specialise in the effects of dibenzo-furan and benzo-dioxins. He will be off to the USA in 1973 to do some work and would be a useful contact on any work on Pentachlorophenol impurities.
