FROM (NAME & LOCATION) P. G. Benignus - B2SH

DATE : July 1, 1971

SUBJECT : General Electric
Aroclor 1221

REFERENCE :

cc: R. H. Munch - 1760
P. L. Slayton - 1650
J. R. Fallon

TO : J. G. BRYANT

You have copy of J. T. Bell memo dated June 21 giving Anniston's suggestions for specifications.

Recall that I gave you Dr. Munch's memo on his suggestions for Aroclor 1221.

Please present both documents to GE in order to present Monsanto's views for GE's consideration.

They may accept our views completely but if they have any different points of view we would, of course, be willing to consider them.

Best regards,

Paul
