THE PHILIP CAREY MANUFACTURING CO. • GENERAL OFFICE, LOCKLAND, CINCINNATI 15, OHIO

ENAMELCLAD COATING

Description: A quick set liquid bituminous cement manufactured for use in the Carey Enamelclad Process. A blend of pure Asphalts combined with Carey mined Adhesives, mineral filler, preserving oils and solvents. Possesses excellent adhesive and penetrative qualities.

Uses: For cementing and coating cotton membranes applied to metal tile and slate surfaces under the Carey Enamelclad Process. For recasting, fabric coating, metal painting, etc.

Application: Apply by brush or spray in accordance with Carey Enamelclad specifications for embedding, laying, and coating approved fabrics.

Coverage:
Base Coat 1 1/2 gal per 100 sq ft
1st Top Coat 1 1/2 gal per 100 sq ft
Finish Coat 1 Gal per 100 sq ft
Recoat Work 1 Gal per 100 sq ft

Caution: Store in warm place during cold weather. Avoid freezing, which weakens adhesive properties. Warm containers in hot water if product thickens during cold weather.
