

Third, you could announce your intention to withdraw the U. S. from the Paris Climate Treaty according to the four-year schedule specified in the treaty and continue the process of repealing the regulations that the previous administration submitted as part of its NDC. This option is the least preferable because it runs the risk of legitimizing the Obama Administration's false claim that the treaty is merely an executive agreement.

The undersigned organizations believe that withdrawing completely from Paris is a key part of your plan to protect U.S. energy producers and manufacturers from regulatory warfare not just for the next four years but also for decades to come. We will strongly support your decision to keep your campaign commitment to withdraw from the Paris Climate Treaty.
