Subject: Industrial Vacuums for Asbestos Clean-up

Dear Mr. Rainer:

Reference: Shell Oil Company/Shell Offshore Inc., Service Agreement
Effective December 4, 1981

As per your request, attached is information on industrial vacuums for asbestos clean-up. Both models listed are recommended, but the GS 80 model includes attachments that may be more appropriate for an office setting. If either model is purchased, a sales representative would be available to demonstrate the proper use of the vacuum, filters and attachments.

A brochure of each model will be forwarded to you upon receipt.

If you have any further questions, please do not hesitate to contact me at Ext. 4627.

Yours very truly,

Matthew Carroll
