 H. L. Roberts
 C. L. Ruddle
 R. W. Scoular

Asbestos waste previously handled at the Technical Center has required that asbestos caution tags be attached to the plastic bags containing asbestos before disposal. However, waste tracking recordkeeping will require that in the future all asbestos waste requiring disposal must have, in addition to the asbestos caution tag, a waste disposal tag attached to the plastic bags.

Both tags must be attached to the asbestos waste disposal bags before Bob Roberts will pick them up for disposal at the Goff Mountain landfill.

If you have any questions please call me on extension 3676 or Bill Bott on extension 3790.

Sincerely,

D. W. Coffman
