I'm certain that by now, all of you are aware that you are members of the 1983 SHAC. Official announcement will be made by the Plant Manager within the next two weeks. We are to take over from the 1982 SHAC on February 1; therefore, we have only this month to work with the outgoing committee.

It has been suggested that we all try to make at least one meeting with the 1982 SHAC. These meetings are held every Wednesday at 1:00 P.M. in the third floor conference room of the main office building. You are invited to attend one or more of the meetings at your convenience. In addition, the fourth quarter inspections are being conducted within the next two weeks. A schedule is attached. Please select one to participate in, contact the responsible SHAC member, and make arrangements to participate.

We will have an all day session with the outgoing SHAC during the week of January 10. Details of when and where will be given to you later this week.

I am looking forward to working with you during the next twelve months. I am confident that we will make a significant contribution to over-all plant safety performance.

Harry
