Myrle Self -- Proko Industries

August 23, 1976

Dear Myrle:

Because of the number of cases in which they are involved, our insurance company is particularly concerned about the subject of asbestos, and this is despite the fact that they are very pleased with the very excellent test results that come out of Proko and Bondex on the recent asbestos dust monitoring.

Although I have assured the insurance company that both Bondex and Proko were in fact working to be "out of asbestos" in our formulations (with the exception of roof coatings" at or near the first of the year, they have asked that we keep accurate records and pinpoint the dates as we go to non-asbestos formulas for the various products in both of our lines.

I believe you've switched already as we have on a couple of items. If you'll maintain a file on those change over dates and advise me as well when they're taking place, we will keep the insurance company posted accordingly as well as a final date when we've made the complete change. Thanks.

Cordially yours,

BONDEX INTERNATIONAL
