

# Lettin' the Cat outta the Bag!

Left—A-S-H Automatic Sequence Head of the Automatic Sequence Hydrovac. Note that the initials of both are the initials of our company's name, A-S-H, Allen-Sherman-Hoff. This equipment "practically thinks for itself," and while its initial cost is higher than manually operated systems, it is actually more economical in the long run, because of what it saves in time and maintenance. Often it pays for itself in about a year.

It took five long years of designing, experimenting and building to perfect new Automatic Sequence Remote Control Hydrovac System for handling any material from the finest dust up to loose, bulky materials of various sizes. To the engineers and companies contributing to this development, quite aptly referred to as "Pneumatic Materials Handling System Tomorrow," we express our hearty thanks. . . . We are "Lettin' the Cat Outta the Bag" with the publishing of a new catalog, covering manual and automatic systems for handling material in metal and non-metallic mines, coal burning, generating and heating plants, process industries, etc. . . . A letter from you will bring one of the catalogs very promptly. If your problem is urgent, tell us in the letter you want an engineer to bring the cat out and discuss your particular job with

ALLEN-SHERMAN-HOFF CO., 227 S. 15th ST., PHILADELPHIA 2, PA. Office & Representatives in Principal

AUGUST 1948 VOLUME 92, NUMBER 8

A CROSS-INDEX OF SUBJECTS FOR THE MONTH

PLANT OPERATING METHODS, MAINTENANCE AND SAFETY  
STEAM GENERATION, FUELS, FIRING AND COMBUSTION  
TURBINES, ENGINES, AUXILIARIES, HYDRO POWER  
DIESELS, GAS ENGINES AND ACCESSORIES  
AIR CONDITIONING AND REFRIGERATION  
ELECTRICAL EQUIPMENT, ELEVATORS  
PIPING, VALVES AND SPECIALTIES  
TRANSMISSION, LUBRICATION  
STEAM SERVICES, HEATING  
INSTRUMENTS, CONTROLS  
PUMPS, COMPRESSORS
