

1 plus a duct, and not only the patients' rooms,
2 lavatories, kitchens, everything where the hospital is
3 being air conditioned.

4 Then you have your mains to the mechanical
5 rooms where the pumps go to feed these things, and you
6 have crawl spaces where you have the pipe underneath
7 to go to the bottom of the floors, the various
8 lavatories and such.

9 Q Was there a mechanical room on each floor?

10 A Yes, yes, probably more.

11 Q And what was in the mechanical room?

12 Was there a mechanical element in each
13 mechanical room?

14 A Yes, air handling units, pumps, probably hot
15 water generator and hot water storage tanks.

16 Q About how much time do you believe that you
17 worked in all of the mechanical rooms at the hospital
18 as opposed to everywhere else?

19 A Yes, as opposed to everywhere else.

20 MS. TOSTANOSKI: That is a question.

21 MR. IGNATOWSKI: I am sorry.
