Q And how did that come about?

A Talking with the toolmen that come around the shop selling us shop tools. He got to talking about brake dust and all, how we should try to avoid it.

Q What steps did you take to avoid breathing brake dust?

A I bought myself a face mask, and we stopped using compressed air when blowing it off the brake shoes, started using like a paintbrush and kind of dusting it off there into a trash container.

Q Did you ever see a warning on the boxes of brake lining materials that were marked Ford or Fomoco?

A No.

Q Did you ever see a warning on the boxes of any brake lining materials that you had used or worked around as a mechanic for Foreign Motors?

A No.

Q Let me ask you, Mr. Grewe, do you prefer to have your name pronounced Grewe or Grewe?
