IMPORTANT

Shortages or errors in billing must be reported within ten days from receipt of shipment to secure proper adjustment.

In making all shipments our responsibility ceases when we receive a signed bill of lading from the transportation company. Claims for losses and damage in transit must be filed with the transportation company by our customers. If shipments are received in a damaged condition, or short in the number of packages, be sure to have the freight agent make such notation on the paid expense bill. This will enable you to file claim without affidavit.

PAINTS AND VARNISHES DU PONT PREPARED PAINT Formerly Town and Country—Bridgeport Standard Brands

The very highest grade of prepared house paint. Combines the best covering and spreading properties with extreme durability and a proper repainting surface. Estimated to cover 350 to 400 sq. ft. to the gallon, two coats.

PAINTS AND VARNISHES GALVANIZED IRON PRIMER

For use on galvanized iron before painting. It is rust-inhibitive and gives a suitable ground for paint coats.

Estimated to cover 750 sq. ft. to the gallon, one coat.

List Prices per Package
Gals. Qt.
3.75 1.15

Group 2 Discount

FERRO-KEEP

A high-grade, rust-resisting paint for either interior or exterior metal surfaces subject to normal conditions and exposures. For structural steel, pipe lines, railings, gratings, fire escapes or bridges.

Estimated to cover 700 to 750 sq. ft. to the gallon, one coat. Contractors usually figure two tons of steel to the gallon, one coat.

List Price per Gallon
Black 3.80
Green 3.75
Red 3.50
Gray 4.25

Group 2 Discount

LAB ENAMEL

A flame-resisting white enamel for hospitals, chemical laboratories, bakeries or factories where fumes are present. Offers a high degree of resistance to fumes which would quickly destroy or discolor the ordinary enamel film. Dries with a hard but elastic film and a good gloss. Brushes freely, but may be sprayed when this method of application is advantageous.

Estimated to cover approximately 500 sq. ft. to the gallon, one coat.

List Price per Gallon
White 6.00

Group 2 Discount

KROMATE METAL PRIMER

Kromate Metal Primer is intended as a priming coat previous to the application of either Antoxide or Ferro-Keep and is one of the latest developments of the du Pont Company.

This product is similar in color to the lighter shades of red lead. Comes mixed ready for use, and does not settle hard in the package, and is far superior to red lead in rust-inhibitive properties, giving a more perfect film in every way.

List Price per Gallon

Gals. Qt.
8.75 2.75

Group 2 Discount

PAINTS AND VARNISHES GRAPHITE PAINT (Ready for Use)

A ready-for-use paint for the protection of metal surfaces, in which the pigment is finely ground in a linseed oil vehicle.

Estimated to cover 600 sq. ft. to the gallon, one coat.

List Prices per Package
Gals. Qt.
3.30 .95

Group 2 Discount

LITHOGEN PRIMER

A transparent, semi-paste primer especially adapted for sealing brick, plaster and concrete work. Forms a perfect foundation for Du Pont Flat Wall Paint.

Estimated to cover 600 sq. ft. to the gallon.

List Prices per Package
Gals. Qt.
3.30 1.05

Note: Carried in five-gallon cans.

Group 2 Discount

MASTER PAINTERS' BASE PAINT

An excellent grade of white and tinted semi-paste especially prepared for Master Painters use. A scientifically prepared product, designed to produce a tough elastic coating that will give the maximum in protection. Will not chalk as quickly as white lead and wears away smoothly, leaving ideal conditions for repainting.

List Price per Gallon
White 10.00
Bronze Green 15.00
Cream 10.00
Oak Leaf Brown 14.00
Scotch Gray 20.00

Note: White carried in five-gallon cans.

Group 2 Discount

PAINTS AND VARNISHES

SHINGLE STAIN

A preservative that greatly lengthens the life of shingles and affords a selection of colors that will harmonize with any color combination. May be used for dipping or brush coating.

Estimated to cover 125 sq. ft. to the gallon, two coats brushed on. Two and one-half gallons will dip 1000 shingles, approximately.

BULLETIN COLORS

Ground in Linseed Oil

We list below an assortment of the most popular Bulletin Colors in Oil which we have to offer. These are selected as standards from a large number of specialties which we make from time to time. The colors themselves are all current selling items, and are popular in all sections.

Orders for special Bulletin Colors should be confined to this list wherever possible. We can, if necessary, furnish special Bulletin Colors of almost any shade to meet your needs at special prices, but it is always necessary in special colors to secure an order for at least 100 lbs. as a minimum, due to the increased cost per pound that accrues when small quantities are furnished.

Tufcote

Varnish Stain

A high-grade varnish stain for finishing or refinishing floors, furniture and interior woodwork. It does not require constant stirring while the stain is being applied, nor does it produce "specky" finish.

As the name "Tufcote" implies, it produces a very tough and elastic finish. The varnish used is easy working, rapid drying and elastic. Will dry overnight and will stand the hard usage required for a floor finish.

Graining Ground is used where the surface to be finished has already been stained or painted and the surface is darker than the stain to be applied. Dries with a flat finish and is the shade of new wood.

WHITE LEAD IN OIL HARRISON'S BRAND

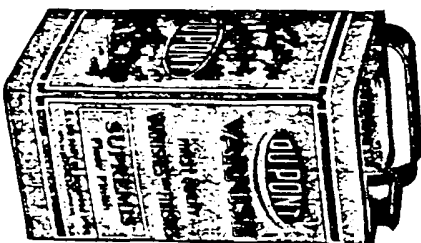

(Strictly Pure)

Extremely white, finely ground, breaks up easily, hiding properties unequalled. Its oil-absorbing properties are unsurpassed; as a matter of fact comparative tests will prove that Du Pont White Lead will absorb more oil than the average white lead. This insures more covering capacity.

PAINTS AND VARNISHES

DU PONT VARNISH

The yellow label and square can of the Chicago Varnish Company have been recognized as symbols of quality for over fifty years. We will maintain this distinctive yellow label and square can under our own trade-mark, the du Pont Oval.

In acquiring the business of the Chicago Varnish Company, we fully realize that its varnishes have long been recognized as standards by the trade, the master painter, the architect and the general public. Fully appreciative of this fact, in outlining our policy towards this line and its established trade, it is our desire to impress upon you most strongly the fact that we shall continue the same high quality. It is also our intention to support the sales of this line of clear varnishes and varnish specialties with the widest publicity. Our advertising program embraces the use of the leading trade papers, architectural publications, painters' journals, in addition to an extensive department for direct sales promotion work.

Through our several plants and warehouses, located at the main distributing points of the country, we will be able to give you the best of service. Ample stocks will be carried in all warehouses, from which points shipments will be made to you. Our manufacturing plants are equipped with the most modern appliances and machinery, and are supported by our chemical and research laboratories not only for the maintenance of uniformly high quality, but for the continued improvement of our products.

PAINTS AND VARNISHES ARCHITECTURAL FINISHES

SUPREMIUM FLOOR FINISH

This was the first varnish put on the market especially for floors. An easy-working, full-covering, rapid-drying wood preserver. Very hard, yet elastic. It does not mar or scratch white; excludes all moisture; possesses great durability and does not crack.

FLORSATIN

Florsatin has all the virtues and none of the defects of a wax finish on floors. It does not scratch white or mar and is durable and not slippery. It is applied with a brush, like any other varnish, works easily, flows well and dries hard overnight with an appearance exactly duplicating wax finish.

LIPOLEUM SHIELD

Doubles the wearing quality of linoleum and oil cloth. Enhances the appearance of new and restores lost lustre to old linoleum. Dries overnight.

SHIPPOLEUM INTERIOR FINISH

Shipoleum has a good color, fine body and lustre, and works very easily. For extreme durability it has absolutely no equal.

CHI-VO

A varnish giving a beautiful rubbed finish which is now so much in demand. Saves the labor and expense of rubbing. Works freely, has great spreading capacity, fully a third more than ordinary varnish, and can be applied in much less time.

NAVALITE (Spar)

Navalite dries free from dust in three hours and hardens overnight, but does not set up too quickly for ease in application. It does not skin over if left in can unsealed, nor does it gum the brushes, pails or pots. It flows freely, has good body and retains its lustre. It has wonderful elasticity and will not turn white under any conditions. It is a spar varnish of the highest quality.

DURABLE SPAR

This is a pale, free-working varnish manufactured especially for outside use. It works easily, has great brilliancy and dries free from dust in ten hours. It is a very durable varnish.

PURE BATAVIA DAMAR

A white varnish made of the highest grade Damar gum only, for fine enamel finish. It is exceedingly pale in color, has a good body, works well and dries admirably.

PAINTS AND VARNISHES ARCHITECTURAL FINISHES—Continued

HYPERION FINISH

This Varnish makes a beautiful finish for fine interiors, mantels, cabinets and other choice furniture and is also especially adapted for church seats, as it dries thoroughly hard. It has a fine lustre and will rub or polish handsomely. It is pale in color and dries quickly. Rubs in thirty-six hours.

ARCHITECTURAL COACH

A pale, heavy-bodied, fine-flowing varnish with a beautiful lustre for use on interior finish. Dries free from dust in five or six hours and becomes hard in twelve to fifteen hours.

MISCELLANEOUS VARNISHES

No. 1825 VARNISH

An excellent varnish for use on floors, furniture and all woodwork. Dries with a good gloss and does not mar. Dries dust-free in three-quarters of an hour and hard overnight.

PIANO POLISHING

A very high-grade polishing varnish, intended for the finest work. It has a good body, is light in color, works very easily and gives an elastic and durable finish. It rubs and polishes in four days, taking a very brilliant finish.

FURNITURE RUBBING AND POLISHING

This is intended for use on a fine grade of furniture. It has a good body, fine lustre, works easily, rubs in thirty-six hours and in forty-eight hours takes a handsome and durable polish.

No. 1 FURNITURE

This is designed for a cheap grade of work. It has a good color, fine lustre and dries rapidly.

PALE INTERIOR FINISHING

Pale in color, works easily, has a splendid body and dries with a fine full lustre. It may be rubbed when thoroughly hard.

No. 1 COACH

Has a good body and lustre, is light in color, works easily, is durable and dries well overnight with a fine gloss.

SPECIAL COACH

This is pale in color, has a good body and dries well overnight with a beautiful lustre. It is intended for interior standing finish.

PAINTS AND VARNISHES

MISCELLANEOUS VARNISHES—Continued

LIGHT HARD OIL FINISH

Light in color and a most excellent material. It surpasses any other light oil finish known. Dries in about twenty-four hours, works freely and has a good lustre.

HARD OIL FINISH

This is intended for interior standing finish. It has a good body, a pale color and dries well overnight with a beautiful lustre.

BATAVIA DAMAR

This is white in color, works easily, has a good body and is unexcelled in drying qualities.

T. ASPHALTUM

A quick air-drying black of splendid lustre made from the best grade of asphaltum.

B. ASPHALTUM

Is a quick air-drying black of fine lustre and made of a good grade asphaltum.

JAPANS AND DRIERS

NONPAREL JAPAN

This is a pale oil Japan, is a very strong drier and it is not necessary to use nearly as much as of other Japans to accomplish the same results. Sign painters have for years used this as a gold size and declare there is nothing equal to it. Least can be laid safely in from one hour to one hour and a half. It is very pale and this is essential where it is to be used with delicate colors.

SUPREME JAPAN

In drying strength this surpasses anything in the market and is unequaled as it mixes with colors and cheap oil without "livering up." It is a superior article in every respect.

Caution: In mixing with most of the colors one gill of Supreme Japan to the gallon of paint is sufficient. Never use more than 1½ gills to the gallon of paint.

TURPENTINE JAPAN

Is a rapid drier and good binder of a good color and will mix well with linseed oil without curdling.

WHITE JAPAN

This is an excellent Japan for using with white and light-colored paints, as it mixes well, is pale in color and has good body and drying strength.

B. & T. JAPAN

A good drier and binder of paints. It mixes well with linseed oil and has a good color.

PAINTS AND VARNISHES

AUTOMOBILE VARNISHES

BLUE DIAMOND AUTO BODY FINISHING

This product represents the peak of development in the manufacture of a high-grade finishing varnish for automobiles.

It is a pale, heavy-bodied, durable varnish with brilliant lustre. Is easy working and will dry dust-free in four to five hours and under favorable conditions may be handled in twenty-four to thirty-six hours.

AUTO BODY FINISHING

A finishing varnish for fine work; has a brilliant lustre, is light in color and has splendid wearing qualities. Dries dust-free in four to five hours and under favorable conditions may be handled in twenty-four to thirty-six hours.

AUTO BODY RUBBING

This is a body rubbing varnish of high quality; it flows well on large panels and produces a fine surface for finishing coats. It has a medium body, good color, dries hard overnight and rubs in two to three days without "sweating."

AUTO WHITE BODY FINISHING

An exceedingly pale varnish especially adapted for use over light and delicate colors. Is designed for fine work, has a brilliant lustre and dries dust-free in six to eight hours, hardening in forty-eight to sixty hours.

MEDIUM DRYING AUTO BODY FINISHING

Has a brilliant lustre and fine wearing and working qualities, dries dust-free in three to four hours and under favorable conditions may be handled in twenty-four to thirty-six hours. It shows remarkable resistance to oils as well as to mud and water.

COACH BODY

This varnish is intended for finishing coats on repair work or a class of vehicles where a less expensive article than our standard brands is required. It has a good body, and dries with a fine lustre.

COACH RUBBING

This varnish is intended to be used on a class of vehicles where a less expensive article than our standard brands is required. May be rubbed in eighteen to twenty-four hours.

No. 90 HEAVY GEAR

For use on work where the price will not permit the use of a more expensive varnish. Has a good body and dries in twenty-four hours with a fine lustre.

ONE-COAT COACH

This varnish is especially adapted for finishing where haste is required and rubbing varnish has to be dispensed with. It has a good body, fine lustre, works freely and one coat is sufficient over dead color or color varnish. Dries free of dust in four or five hours and hardens in twenty-four to thirty-six hours.

QUICK RUBBING

This varnish has a good body and color and is designed for quick coach work. It will rub in forty-eight hours without "sweating out."

PAINTS AND VARNISHES AUTO BODY AND CHASSIS BLACKS

AUTO BODY PRIMER BLACK

This material is intended for priming or first coating on metal bodies; it has great toughness and durability.

RHONBLAK QUALITY FINISHES

For use on auto bodies, fenders, hoods, lamps, chassis, wheels and other parts. These finishes are furnished in black only. High Gloss Black is to be used for high luster and Velvet Black where dull rubbed effect is desired.

No. 1301 CHASSIS BLACK FINISHING

It is a very high-grade, air-drying black for chassis work, which covers solidly with one coat.

No. 192 CHASSIS BLACK FINISHING

Has splendid covering capacity and gives entire satisfaction where a cheap chassis black finish is desired.

A. D. BLACK JAPAN

Is a good solid covering, quick air-drying black Japan, used mostly on tender work, but also quite extensively on other work where a cheap black Japan is desired.

QUICK BLACK RUBBING

This is a jet black varnish of dense color and possessed of unusual covering and working qualities. It has no equal in the market. Can be rubbed safely in two days.

STANDARD BLACK RUBBING

This is a jet black varnish of dense color and possessed of unusual working qualities and covering power when used over flat black. Can be rubbed safely in four days.

No. 10 DENSE BLACK RUBBING

This is a jet black solid covering, easy working product. It has no equal in the market. Can be rubbed safely in thirty-six hours.

PAINTS AND VARNISHES Old English Paint Oil

This is a vehicle made on a base of China Wood Oil, and has practically the same body as Raw Linseed Oil. It is not presented as a substitute for Linseed Oil, however, but as having distinctive and indispensable merits in itself.

Old English Paint Oil is water-proof, weather-proof, alkali-proof, glow-drying, steam-proof and vapor-proof, a blender and preservative, adapted for inside and certain kinds of outside use, and is durable. It does not turn yellow, darken, mar or turn white. It withstands wear, prevents chalking and dries hard, tough and elastic. It will dry in damp and frosty weather and is valuable for a natural finishing coat as well as for use in painting.

For use on inside work, gloss or flat, wall, floor or general inside painting of any description. It is used in tempering varnishes, glossing white paint, as a drier for raw oil and oil clothing, dressing oil cloth or linoleum, as a sizing and for painting damp walls.

Inasmuch as this Oil is composed of intensive drying agents, it is not recommended for all kinds of outside painting. It is, however, adaptable for the following outside uses:—

For thinning paste colors in use in signboard painting, it sets up more quickly than linseed oil, enabling the user to "cut in" colors without running.

For water-proofing concrete and in all kinds of railroad work, such as rolling stock, truck frames, floors of cars and stations, structural or bridge work.

For use on marine work. It retards the action of salt or fresh water, gives a high gloss and holds its lustre.

For use in painting porch floors, in mixing shingle stains and roof and barn paints, binding the color free from wash.

It is not to be used in thinning the Pont Prepared Paint.

Put up in barrels and five-gallon cans only.

Prices Quoted on Application.

PAINT AND VARNISH SOLVENT

Softens Paint, Varnish, Shellac or Wax with one application so that it may be easily and thoroughly removed within a few minutes. It leaves the wood in perfect condition for new coats of paint or varnish. Does not raise the grain, discolor or otherwise injure the most delicate woods. Does not affect glue-set brushes. Does not dry up even when left on the surface for some time. Free from any disagreeable odor.

Estimated to remove an average of 100 sq. ft. of finish to the gallon.

PAINTS AND VARNISHES

DU PONT INTERIOR PASTE WHITE

(Ground in Linseed Oil)

DU PONT INTERIOR PASTE WHITE, ground in Linseed Oil, is best adapted for a gloss finish, and can also be reduced to an eggshell finish. It is not necessary to stipple a Lithopone Paste for proper covering. However, Interior Paste White should be used for this method of application in preference to Sanitary Paste White, as the latter, with its varnish vehicle, does not stipple so well as Interior Paste White.

100 lb. kegs. 1 lb.
25 lb. kegs. 1 lb.
12 1/2 lb. kegs. 1 lb.

Group 8 Discount

DU PONT SANITARY PASTE WHITE

(Ground in Flattening Varnish)

DU PONT SANITARY PASTE WHITE, ground in Flattening Varnish, is best adapted for a flat or semi-gloss finish.

100 lb. kegs. 1 lb.
25 lb. kegs. 1 lb.
12 1/2 lb. kegs. 1 lb.

These products are offered in paste form for the use of the Master Painter and the large consumer for the purpose of an interior base paint in paste form. They are largely Lithopone in composition, ground to an extreme fineness, and can be manipulated by the Master Painter to produce a flat, eggshell, or gloss finish. These goods may be mixed in any consistency desired.

Either of these products may be tinted with du Pont Colors in oil.
