Dear Bob:

This is just a line to express my appreciation of your very helpful attitude on the childhood plumbism matter; with your interest and Doctor Kotte's, we ought to go places. You have acquired an enthusiastic rooter in George Wheatley, with whom I made the return journey.

Enclosed for the Kettering Archives is a copy of the humorous (?) item on lead poisoning. I shall try to pick up a copy of the Ellery Queen opus.

You will hear from me shortly and at greater length on the stabilizer matter.

Sincerely,

mb/sd
