March 11, 1969

To: Mr. E. J. Salter

From: R. J. Ely

Subject: Composition Brake Shoes

As you know, we had a meeting recently with Mr. Borcherding from Dr. Blackwell's office on the above subject.

A copy of his trip report is attached. We have made arrangements to have the necessary competitive materials on hand for extensive testing about mid-April.

Meanwhile, please consider that the work suggested in paragraph 2 of Mr. Borcherding's letter can be considered as appropriate to be done under the supervision and guidance of your laboratory as part of Research Order No. RPG-30-1.

R. J. Ely
