We are pleased to introduce MacRAE'S Industrial Directory, the new name of the 92nd edition of MacRAE'S Blue Book, America's original industrial directory. Our focus, as ever, is the OEM (Original Equipment Market). Our commitment is to provide key facts about key manufacturers throughout the U.S.A.

MacRAE'S invites you to discover MAXCOM, our toll-free lead referral system. Discover, in addition, the diversity of MacRAE'S directories designed to answer your specific information needs: MacRAE'S Directory of Manufacturers' Representatives; MacRAE'S Directory of Firms Marketing Through Manufacturers' Representatives, its companion volume; state industrial directories spanning the entire nation.

To the best of our knowledge and resources, all information listed in this edition is current and correct. Companies are asked to update their listings via annual questionnaire mailings. The publisher, however, waives all responsibility for any errors or omissions. TABLE OF CONTENTS VOLUMES 1-5

Your five-volume **MacRAE'S INDUSTRIAL DIRECTORY** includes a **Corporate Index**, a **Trade Name Index**, and a **Product Classifications Index**. The following overview will help you make the most efficient use of this reference resource and its special features:

CORPORATE INDEX

VOLUME 1

When you know a company's name, use the Corporate Index to find out where to contact the company. This section lists companies in alphabetical order, with addresses, telephone numbers, sales and branch offices, and capital ratings, as provided. It also includes a brief description of each firm's products and/or services.

Manufacturers' catalog pages are grouped alphabetically at intervals throughout the index.

TRADE NAME INDEX

VOLUME 1

When you know the trade name of a product and want to find the manufacturer, use the Trade Name Index. This section includes registered and non-registered trade names of companies listed in the Corporate Index, with their addresses provided.

PRODUCT CLASSIFICATIONS INDEX

VOLUMES 2, 3, 4 AND 5

When you need to locate manufacturers of a specific product, turn to the appropriate category in the Product Classifications Index. Organized alphabetically by product classifications, companies are in turn listed alphabetically in these sections, with addresses, product descriptions, and capital ratings provided. Advertisers' names are printed in boldface and appear ahead of light-faced listings within categories. They include telephone numbers and may refer you to a particular advertisement in any of the five volumes for additional information.

Manufacturers' catalog pages are arranged in alphabetical order following appropriate product classifications.

CAPITAL RATING SYSTEM

A high proportion of company listings indicate capital ratings. A one, two, or three-digit number in parentheses, directly after a company's telephone number, represents its capital rating. You can calculate a firm's invested capital by multiplying its rating by \$100,000. For example:

$$\begin{aligned}(1) &= \$ 100,000 \\(10) &= \$ 1,000,000 \\(100) &= \$10,000,000\end{aligned}$$

Capital ratings may also be represented by fractions. For example, ratings of ($\frac{1}{4}$) or ($\frac{1}{2}$) represent a rating of \$25,000 and \$50,000, respectively.

READER SERVICE CARDS

Bound into each volume are postpaid reader service cards. If you wish to receive further information about MacRAE'S advertisers, fill in the reader service numbers (found following each advertiser's listing in the Corporate and Product Indexes) and drop the card in the mail. You can also request information about non-advertisers by writing in the company names.

ADVERTISING INQUIRY CARDS

If you are interested in advertising in MacRAE'S, complete and mail the postpaid cards bound in the front of each volume. We will furnish you with detailed information about the options and benefits of advertising in MacRAE'S.
