

October 13, 1960

S. I. Gleason, Ph.D.
Director of Research & Development
Wynn Oil Company
1151 West Fifth Street
Azusa, California

Dear Doctor Gleason:

Since Doctor Kehoe has had to leave the country for Europe, and has not had time to attend to all outstanding correspondence before he left, he has asked me to acknowledge your letter of September 28th.

Regarding your inquiry, Doctor Kehoe wishes me to tell you that his letter, or a suitable abstract of it, can be used in correspondence for strictly professional purposes - not for distribution in the form of a testimonial - but privately and solely for the purpose of substantiating the facts concerning the lack of hazard. He feels sure that he can trust your discretion in making proper use of what he has written, but he is particularly anxious that great care is used to avoid the implication that The Kettering Laboratory is a "testing laboratory".

Doctor Kehoe will be returning from Europe at the end of the month and will be very interested to hear how you have dealt with the matter.

Very truly yours,

S. Skora, Secretary to
Dr. Robert A. Kehoe
