

STRONG ON SERVICE

Foster Super-Jet Safety Valves, first to be designed especially for high pressure boiler service, need less servicing. Because of basic design features, they stay tight, pop accurately, reseal with minimum blow-down, and are easier and quicker to service when servicing is indicated.

Cutting in boilers . . . Availability of Foster Service Engineers is assured. These men are qualified to make any adjustments required for satisfactory operation, and to train operating personnel in the maintenance and care of valves. All adjustments, including checking of piston freedom, can be made with the valve under pressure.

Scheduled and emergency outages . . . Foster Service Engineers are available if required. Valves are constructed so that complete overhaul can be done on the spot without cutting and rewelding. And any overhaul, including pulling and replacing the nozzle can be done in 4 hours or less.

For full information on Foster Super-Jet Safety Valves, ask for Bulletin 80-SV.

Another First For Foster . . . A large Eastern Utility has selected Foster Super-Jet Safety Valves to protect a new high pressure, 1,000,000 lb./hr. unit. Boiler drum valves are set from 2450 to 2730 P.S.I., saturated; superheater outlet valves, 2600 and 2620 P.S.I., at 1100°F; reheater inlet valves, 600 to 618 P.S.I., at 703°F; and reheater outlet valves at 560 and 563 P.S.I., at 1030°F.

PRESSURE REGULATORS • RELIEF AND BACK PRESSURE VALVES • CUSHION CHECK VALVES • FAN INCHING REGULATORS • PUMP GOVERNORS • TEMPERATURE REGULATORS • FLOAT AND LEVER BALANCED VALVES • NON-RETURN VALVES • VACUUM REGULATORS OR BREAKERS • STRAINERS • SIRENS • SAFETY VALVES • FLOW TUBES

METERS AND INSTRUMENTS

31 Indicating Recorders and Controllers—design, construction, application, typical circuits. Catalog ND10(1), 16 pages. Leeds & Northrup Co., 1334 Stanton Ave., Philadelphia 14, Pa.

32 Meter—mercury flow type indicator, recording and totalizing meter for water, gas, air, sewage, sludge, etc. Bulletin 401, 12 pages. Simpson Valve & Meter Co., 52th & Locust Sts., Philadelphia 47, Pa.

33 Air Filter—dehydrator, mechanical filter and automatic trap for instrument quality air, disposable filter cartridge. 1 page. Hamilton Corn Biltmore Bldg., Pittsburgh, Pa.

34 Millivoltmeter Type Instruments—indicators and indicating electronic controllers and safety cut-off controllers. Catalog 104, 25 pages. Minnesota Electric & Instrument Co., Brown Instrument Division, 41 Wayne & Windrim Aves., Philadelphia 44, Pa.

35 Indicating and Controlling Instruments—design, application, operation, principles, construction and specs. 12 pages. GEC-118B. General Electric Co., Schenectady 5, N. Y.

36 Photo Electric Recorder Applications—textile, metal, fatigue correction. 18 pages. GBA-5418. General Electric Co., Schenectady 5, N. Y.

PIPING, VALVES, FITTINGS, SPECIALTIES

37 Liquid Level Gages—reflex type liquid shows black with mirror-like appearance in empty space above also tubular and flat glass. Ferguson Gages & Valve Co., 80 Fallway, Somerville 46, Mass.

38 Non-Slipping Handwheel—to stop valve leakage. 1 page. Circular 501. The Lockheimer Co., Box 260U, Cincinnati 14, Ohio.

39 Bronze Globe Valves—globe, lift and check bronze valves for 150 psi steam, 200 psi water. 4 pages. Circular 502. The Lockheimer Co., Box 260U, Cincinnati 14, Ohio.

40 Instrument Tubing—plastic and metal with plastic covering, corrosion proof. 4 pages. Bulletin 141. Samuel Moore & Co., Dekoron Valve Div., Mantua, Ohio.

41 Pressure Regulators—diaphragm operated spring-opening and closing, regulating valves, pressure controllers, air locks, valve positioner and selector panels. 18 pages. Bulletin 5-25-CA. The Swarthwood Co., 1011 Euclid Ave., Cleveland, Ohio.

42 Solenoid Valves—complete catalog with all data and specs. 12 pages. Catalog 34. Automatic Switch Co., Orange, N. J.

43 Safety Shutoff Valve—checks reduced temperature actuated. 4 pages. Valco, Inc., 1410 West St., Cincinnati 19, Ohio.

44 Tube Fittings—brass cutoff valves, flare tube fittings, compression fittings, copper tube tools, etc. 18 pages. Catalog 251. Universal Brass Corp., 55 Kearny Ave., Arlington, N. J.

45 Pipe Line Filters—designed for low pressure use to 50 psi, combines mechanical separation, filtration. 4 pages. Bulletin 210. Dollinger Forge & Machine Co., 11 Centre Park, Rochester 3, N. Y.

46 Modern Steel Boiling—for piping. ASME reprint, 14 pages plus tables and as Bulletin 541. Taylor Forge & Pipe Works, P. O. Box 488, Chicago 91, Ill.

PUMPS

47 Small Centrifugal Pumps—electric coupled, motor-driven. 1 in. and

apron conveyors

RUGGED CONVEYORS for handling coal . . . coke . . . crushed stone . . . burnt lime . . . hot sand from shake-out.

Inclined or Horizontal
