

BORDEN CHEMICAL
DIVISION OF BORDEN INC

CONFIDENTIAL

March 1, 1982

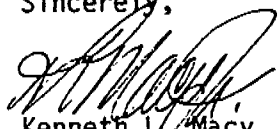

Mr. Bruce Duncan
Self Insurers Management Corporation
60 State Street
Boston, MA 02106

Dear Bruce:

The following is an explanation of Personnel Monitoring terms used
on the enclosed forms:

VCM	Vinyl Chloride Monomer
TWA (8 hour)	Time Weighted Average, calculated average exposure over an 8 hour period
5.6 PPM	5.6 parts per million of VCM for TWA exposure
Calibration Readings Before and After	Personnel monitoring pump calibration readings before and after each test

Sincerely,

Kenneth L. Macy, Jr.
Safety Supervisor
