COMPANY

Schenectady, May 25th, 1934.

Mr. L. E. Barringer,  
Room # 142,  
Building # 2.

I shall try to settle the matter of the relationship between sericite and the lung pathology called "silicosis" when I attend the special conference on silicosis which is to be held at Saranac Lake during the second week of June.

Very truly yours,

BLV:S

B. L. Vosburgh, M. D.
