Director 580

January 4, 1955

Morris Kleinfeld, M.D.
Chief, Medical Unit
Division of Industrial Hygiene
New York State Department of Labor
80 Center Street
New York 13, N.Y.

Attached herewith is a copy of the program of the forthcoming McIntyre-Saranac Conference. You will note, on page 15, that your talk is scheduled for 11:00 a.m. on Wednesday, February 9.

May I remind you that we would like very much to have all papers, in duplicate, in our hands by January 25 so that we can assure the prompt publication of the proceedings immediately after the Conference sessions.

We now have available projection apparatus for 2" x 2" and 3½" x 4" lantern slides. Should you require any other type of equipment, please let us know.

We are all looking forward to having an interesting Conference.

GHS

G. W. H. Schepers, M.D., D.Sc.
Director, The Saranac Laboratory

cc: J. Messite, M.D.
I. R. Tabershaw, M.D.
