Dear Terry:

Enclosed is a list of individuals identified through the chloracne registry who we would like you to provide work records on and verify whether or not they were "hourly" or "salaried exposed" workers.

Also enclosed is a revised computer output of the individuals identified in the "non-exposed" work record tape, who perhaps should have been excluded from the study sample. The criteria used in this selection process are also enclosed. Please verify whether or not these cases should have been excluded.

Thank you.

Sincerely,

Denise M. Oleske, Ph.D
Project Coordinator
