Safety Director
Columbia-Southern Chemical Corp.
Lake Charles, La.

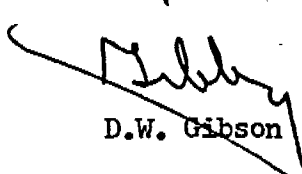

Dear Joe:

I believe, when I last talked to you in Natrium, you mentioned that you were giving some type of an award to employees and departments who were accident free for periods of five or ten years.

I believe you stated you were giving cigarette lighters, watch fobs, or pocket books.

I wonder if you will take time to write me a letter telling me just how this plan works at your plant, and I would appreciate any information that would help us in adopting a plan similar to yours.

Sincerely yours,

D.W. Gibson
