

Translation of questionnaire and consent forms:

- The multi-part questionnaire in the AML and NHL case-control study has been translated into Chinese. A copy of the draft of the translated questionnaire is available upon request.
- The consent forms in the AML and NHL case-control study have been translated into Chinese. Copies of the translated consent forms are available upon request.

Teleconference on December 19, 2001:

- A teleconference was held on December 19, 2001 between the investigators and members of the Technical Committee. Issues related to the revised protocols and increased budgets were discussed.

Database development:

- The development of a database in SAS Version 8 is in progress. The database will have the necessary data entry screens.
- Codes for data entry in the database have been partially developed. Standard coding schemes for industries and occupations will be used.
