Dear Ms. Harrison:

We must make some emergency repairs to a plate-and-frame heat exchanger in our Methanol Oxidation III Unit. Part of these repairs will involve stripping some insulation from pipes and valves, and disposing of the asbestos-containing insulation in our asbestos landfill site. The repair work must be done Monday.

This letter will serve as a notification of this work, as required by 40 CFR 61.22 (d)(2). The attached data sheet lists all the pertinent data.

Please contact me if you have any questions or comments.

Very truly yours,

P. E. Hime
Plant Manager
