Dr. J. H. Craddock
G3WA

Will you please send as much PCB literature as is appropriate to the following individual:

Carlos Byars
c/o Houston Chronicle
801 Texas Avenue
Houston, Texas 77002

I ran into this man, a reporter, at the CMA meeting this week. For a reporter, he is very pro industry and when I told him about PCBs and the lack of proof of human carcinogen properties, he expressed a good deal of interest and I thought it would be appropriate to send what we are sending to other people.

Many thanks.

M. C. Throdahl
