Notes from 5/28/85 @ 1:30 in pencil

Mark Riddle discussed the ^{upcoming} ISA program.

Bob Hammann addressed the group about the plant's safety performance and areas of emphasis for 1985.

OLD BUSINESS

Tank Car Loading

Question was raised concerning cover goggles on AN rack sidewalks (south side).

Action: Material Handling and LP&S will resolve concern.

Check to review with unit safety team and task force for their recommendation.

NEW BUSINESS

In-Battery Line Inspection

A concern was raised about the lack of inspection in battery limits by the unit personnel. It was suggested that the PETS Group include in-battery limits super hazardous lines in their inspection.

Old 17 Building Hazard

A potential falling hazard (from transite siding) was identified in the old 17 structure.

The next Hourly Safety Committee meeting will be on Tuesday, May 28 at 1:30 p.m. in the Personnel Conference Room No. 2. NOTE: Meeting room change.

lw

Mike - Are ball valves in steam service with Teflon seats acceptable?

LAM013529

(cont. on back)

Ben - Vacuum trucks:

- Use compressor to pressure-up truck to off-load into organics ~~truck~~^{tank} - possible flammable mixture in tank could exist
- Gravitate or blow-out with N_2
- Need review of vacuum truck operations

Chuck - CO_2 trucks:

Use hoses of suppliers now vs. before incident - several bad hoses have been found. - PG's are req'd. to hook-up

Jake - Speed Limit violators

- Old scaffolds - how can we eliminate? East plant is going to date all scaffolds in up-coming shut down
- Permits being hung at bottom of C/T's and not on cells & not being returned
- Truck drivers w/o goggles at HCl rack
