

- ★ **De power supplies** and test instruments are subject of 16-p bulletin. Specifications are furnished with dimensions ratings. The Opad Electric Company, 43 Walker St, New York 13, N. Y.
- ★ **Heat exchangers** are detailed in 24-p catalog 101. Units are available in 150-, 300- and 450-lb tube- and shellside pressures: 2, 4 or 6 passes tubeside. The Griscom-Russell Co, 185 Wetmore Ave, Massillon, Ohio
- ★ **"Silicones for electrical insulation"** is title of 8-p publication CDS-288. Electrical and electronic applications for silicones are charted. General Electric Company, Silicone Products Dept, Waterford, N. Y.
- ★ **Semiconductor catalog** covers over 800 devices, gives ratings, characteristics and descriptive data on silicone-glass diodes, rectifier cells, h-v cartridges, silicon-controlled rectifiers, silicon solar cells. Write on company letterhead to International Rectifier Corp, El Segundo, Calif.
- ★ **Hydraulic products** are topics of three catalog sections featuring tubing, fittings, hose. Applications, specs are detailed. Formite Tube Company, Two Rivers, Wis.
- ★ **Safety-relief-valve catalog 301** has 100 pp, illustrates and describes firm's complete line. Capacity chart and tables, valve-service index, maintenance-equipment details, guide to corrosion-resistant properties aid selection. Crosby-Ashton, 8 Kendrick St, Wrentham, Mass.
- ★ **Electrical-indicating panel instruments** are covered in 24-p catalog available to engineering personnel. Electric Sales Div, DeJur-Amsco Corporation, 45-01 Northern Boulevard, Long Island City 1, N. Y.

"You ordered a mobile transformer?"

How SEVeneering with R/M cut packing replacement, reduced shaft wear and takeup on boiler feed pump

PLAINTIFF'S  
EXHIBIT  
T-247

## Only 2 repackings a year with R/M 1845 "versi-pak"<sup>®</sup> — more than 26 with former boiler feed pump packing

Poor packing life, expensive shaft wear, and constant takeup were all problems harassing the boiler room engineer at Ludlow Papers, Ware, Mass., in maintaining a boiler feed pump operating at 325-350°F and 3450 rpm.

The life of the braided asbestos packing formerly used was only 1-2 weeks, the shaft had to be replaced in less than a year, and too frequent packing takeup was necessary.

Maintenance Specialties Co., an R/M Big 7 Packing distributor, solved all problems fast with R/M 1845 "versi-pak" nonjacketed plastic packing. This Big 7 Type No. 1 Packing, made from long asbestos fibers combined with low-friction compounds and nonleaching lubricants, not only extended packing life to 5-6 months, but also resulted in negligible

shaft wear and packing takeup. And R/M "versi-pak" costs less per set than the former packing.

Ludlow Papers, one of the largest manufacturers of gummed and coated label papers, specialty papers, reinforced papers and tapes, plastic film, and plastic coated materials, is one of many concerns Sevensneering with R/M to meet their packing needs.

Our Big 7 Packing Selection Chart is a helpful guide to the selection and application of R/M Packings for all types of equipment. Write for your copy today. And the next time you need packings, see your authorized R/M Big 7 Packing distributor. He has the technical background and the packings to solve your knuckle-busting problems.

Ground-in lubrication, high resistance to heat, materials handled and pressure make R/M Big 7 Type No. 1 Packings ideal for pumps handling water, steam, chemicals, foods, beverages, oil and solvents.

R/M's Big 7 Packing Types meet 95% of all packing needs, are sold exclusively through authorized R/M distributors
