Mr. Mike Cork
Development Oil Tool
6821 Bradbury Drive
Dallas, Texas 75230

Dear Mike:

In regards to the toxicology studies on 3050 Specialty Alkylate we sent you on September 7, we cannot find Appendix 1 of the Acute Oral Toxicity in rats portion of the studies. We've searched in our "archives" where the original copies of the studies are and cannot find the appendix. We now question if it was ever received from the lab.

The appendix does not contain data, but describes the experimental procedures for dosing, observation, etc. If this information is important to your evaluation, please contact me at 713-588-3445 to discuss.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
