MONTAR LABELING

Paul Benignus
B-2-S

With the recent price sheet revision and review on MONTAR 1,2,3,4,5,6,9, we feel it is advisable to be consistent with other chlorinated biphenyls in precautionary labeling. In this respect the product labels should contain the following statement, or if stenciled containers, affix the black on white label containing the same information.

CAUTION! CONTAINS CHLORINATED HYDROCARBONS
Avoid prolonged breathing of vapors or mists.
Avoid contact with eyes or prolonged contact with skin.
If skin contact occurs remove by washing with soap and water. Following eye contact flush with water.
If clothing becomes soaked with fluid, launder before wearing again.
